1 Who are we?

Infogroep is a student society located at the Vrije Universiteit Brussel (VUB). We provide support for any IT related questions, mainly for the students computer science but also for the other students. Apart from this we also organize lessons, a LAN-party, a job fair and other activities.

2 History

The first lnfogroep LAN-party was organized in 2006, which was a huge success. Since that year we organize the LAN-party each year.

Each year this event draws the attention of many VUB students with a passion for gaming. This year we expect a turnout of around 50 attendees.

3 Infogroep ILAN 2014

A LAN-party is a gathering of people where everyone brings his/her own computer and/or game console. The computers and consoles are connected via a network through which visitors can play games against each other. They also have the option to play board games, card games or other non electronic games. We provide the local network, tables and seats.

Every kind of game can be played for fun or in a tournament. The winner of each tournament wins a prize. Apart from gaming there will be food and drinks available.

From Friday the 14th to Sunday the 16th of February 2014 we will organize our 9th LAN-party. The LAN-party will take place at the VUB in the "Nelson Mandela" room. We expect around 50 visitors, most of them will be VUB students but everybody may join.

4 Sponsorship possibilities

To make all of this possible, we need your help!
We are looking for some nice prizes to give to the winner of each tournament.
Apart from this other ways of sponsorship will also help us to realise this
event. Of course additional ways of sponsorship can be negotiated.
